

**Information Circular 10-279**

Date: April 22, 2010

To: ETP Holders

From: James C. Yong  
Chief Regulatory Officer

Re: PROSHARES REGIONAL BANKING ETFS TO BEGIN TRADING ON NSX

Pursuant to Regulatory Circular 08-005, we are issuing this Information Circular to advise you that the following securities of the exchange-traded funds discussed herein (the "Funds") have been approved for trading on the National Stock Exchange, Inc. ("NSX" or the "Exchange") as UTP Derivative Securities products pursuant to NSX Rule 15.9:

**Security:** (the "Shares")

**Symbol:**

ProShares Ultra KBW Regional Banking  
ProShares Short KBW Regional Banking

**KRU**  
**KRS**

**Commencement of Trading:** April 23, 2010

**Issuer:** ProShares Trust

**Issuer Website:** [www.proshares.com](http://www.proshares.com)

**Primary Listing Exchange:** NYSE ARCA

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website or consult the prospectus or prospectuses available on the Issuer Website (the "Prospectus"). The Issuer Website and the Prospectus are hereafter collectively referred to as the "Issuer Disclosure Materials."

The Issuer Disclosure Materials contains the following information:

**Background Information on the Funds**

The ProShares Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust consists of several exchange-traded funds (each, a "Fund" and collectively, the "Funds"). This circular refers only to the Funds listed above. The shares of each of the Funds listed above are referred

to herein as “Shares.” ProShare Advisors LLC (the “Adviser”) serves as the investment adviser for the Funds.

ProShares Ultra KBW Regional Banking seeks daily investment results, before fees and expenses, that correspond to twice (200%) the daily performance of the KBW Regional Banking Index (the “Banking Index”). It seeks investment results for a single day only, not for longer periods. This means that the return for a period longer than a single trading day will be the result of each day’s returns compounded over the period, which will very likely differ from twice the return of the Banking Index for that period. In periods of higher market volatility, the volatility of the benchmark may be at least as important to the fund’s return for the period as the return of the benchmark. The fund is different from most exchange-traded funds in that it seeks inverse returns and only on a daily basis. The fund also is riskier than similarly benchmarked exchange-traded funds that do not use leverage. Accordingly, the fund may not be suitable for all investors and should be used only by knowledgeable investors who understand the potential consequences of seeking daily leveraged investment results. Shareholders should actively monitor their investments.

ProShares Short Short KBW Regional Banking seeks daily investment results, before fees and expenses, that correspond to the inverse (opposite) of the daily performance of the Banking Index. It seeks investment results for a single day only, not for longer periods. This means that the return for a period longer than a single trading day will be the result of each day’s returns compounded over the period, which will very likely differ from the inverse of the return of the Banking Index for that period. In periods of higher market volatility, the volatility of the benchmark may be at least as important to the fund’s return for the period as the return of the benchmark. The fund is different from most exchange-traded funds in that it seeks inverse returns and only on a daily basis. The fund also is riskier than similarly benchmarked exchange-traded funds that do not use leverage. Accordingly, the fund may not be suitable for all investors and should be used only by knowledgeable investors who understand the potential consequences of seeking daily inverse investment results. Shareholders should actively monitor their investments.

In seeking to achieve each Fund’s investment objective, the Adviser uses a mathematical approach to investing. Using this approach, the Adviser determines the type, quantity and mix of investment positions that a Fund should hold to approximate the performance of its benchmark. The Funds employ investment techniques that the Adviser believes should simulate the movement of their respective benchmarks.

A Fund may hold a representative sample of the securities in the underlying index, which is intended to have aggregate characteristics similar to those of the underlying index. This “sampling” process typically involves selecting a representative sample of securities in an index principally to enhance liquidity and reduce transaction costs while seeking to maintain high correlation with, and similar aggregate characteristics (e.g., market capitalization and industry weightings) to, the underlying index. In addition, a Fund may obtain exposure to components not included in the underlying index, invest in securities that are not included in the underlying index or overweight or underweight certain components contained in the underlying index.

The Adviser does not invest the assets of the Funds in securities or financial instruments based on the Adviser’s view of the investment merit of a particular security, instrument, or company, nor does it conduct conventional stock research or analysis, or forecast stock market

movement or trends, in managing the assets of the Funds. Each Fund seeks to remain fully invested at all times in securities and/or financial instruments that provide exposure to its underlying index without regard to market conditions, trends or direction. The Funds do not take temporary defensive positions.

At the close of the markets each trading day, each Fund will seek to position its portfolio so that a Fund's exposure to its benchmark is consistent with the Fund's investment objective. The impact of the Index's movements during the day will determine whether a Fund's portfolio needs to be re-positioned.

For example, if the Index has risen on a given day, net assets of an Ultra ProShares should rise, meaning that the Fund's exposure will need to be increased. Conversely, if the Index has fallen on a given day, net assets of an Ultra ProShares should fall, meaning the Fund's exposure will need to be reduced. Similarly, if the Index has risen on a given day, net assets of a Short ProShares should fall, meaning that the Fund's short exposure will need to be reduced. Conversely, if the Index has fallen on a given day, net assets of a Short ProShares should rise, meaning the Fund's short exposure will need to be increased.

For more information regarding each Fund's investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Funds issue and redeem Shares at net asset value ("NAV") only in large blocks of Shares (each block of Shares called a "Creation Unit") or multiples thereof. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Each Fund intends to declare and distribute to its shareholders at least annually virtually all of its net income (interest and dividends, less expenses), if any, as well as net capital gains, if any, realized from the sale of its holdings.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Funds' website at [www.proshares.com](http://www.proshares.com).

## **Purchases and Redemptions in Creation Unit Size**

ETP Holders are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and SAI, and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

## **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, derivatives risk, sector risk, and banking industry risk.

## **Delivery of a Prospectus**

ETP Holders should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Funds.

Prospectuses may be obtained through the Funds' website. The prospectus for the Funds does not contain all of the information set forth in the Funds' registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). For further information about the Funds, please refer to the registration statement.

Upon request of a customer, ETP Holders also shall provide a copy of the prospectus.

## **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Funds.

**BECAUSE WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTER(S) REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTER(S) FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN THE SHARES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.**

## **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules

apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

#### **Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to a Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### **SEC Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of a Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of a Fund purchases or arranges to purchase such securities in the secondary

market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

#### **Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

#### **SEC Rule 15c1-5 and 15c1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

#### **NSX Rules Applicable to Trading in the Shares**

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. The Shares

are also a UTP Derivative Securities product as specified in NSX Rule 15.9, and as such are subject to the additional provisions specific to that NSX Rule. In particular, ETP Holders are reminded of their obligations under the following NSX Rules:

1. Trading Hours: This product will trade during the regular trading hours of the Exchange (between 9:30 am to 4:00 pm ET), during pre-market hours (8:00 am to 9:29:59 am ET) and during post-market hours (4:00:01 pm to 6:30 pm ET). Please note that trading in the Shares during the Exchange's pre-market and post-market hours may result in additional trading risks which include: (1) lower liquidity in the Opening or Late Trading Sessions may impact pricing, (2) higher volatility in the Opening or Late Trading Sessions may impact pricing, (3) wider spreads may occur in the Opening or Late Trading Sessions. The minimum trading increment is \$.01.

2. Recommendations To Customers: NSX Rule 3.7 provides that the ETP Holder shall use due diligence to learn the essential facts relative to every customer prior to trading the Shares or recommending a transaction in the Shares that an investment in the Shares is suitable for the customer.

3. Product Description: In the event that a Fund relies upon an order by the Securities and Exchange Commission exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and makes available a written product description, NSX Rule 15.9B(3)(c) requires that ETP Holders shall provide all purchasers of a series of exchange-traded funds ("ETFs") a written description of the terms and characteristics of those securities, in a form approved by the Exchange or prepared by the open-ended management company issuing such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser. In addition, the ETP Holders shall include a written description with any sales material relating to a series of ETFs that is provided to customers or the public. Any other written materials provided by an ETP Holder to customers or the public making specific reference to the series of ETFs as an investment vehicle must include a statement substantially in the following form:

"A circular describing the terms and characteristics of [*the series of ETFs*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the series of ETFs*]."

An ETP Holder carrying an omnibus account for a non-ETP Holder is required to inform such non-ETP Holder that execution of an order to purchase a series of ETFs for such omnibus account will be deemed to constitute an agreement by the non-ETP Holder to make such written description available to its customers on the same terms as are directly applicable to the ETP Holder under this Rule.

4. Customer Requests for a Prospectus: NSX Rule 15.9B(3)(d) provides that, upon request of a customer, an ETP Holder shall provide a prospectus for the particular series of UTP Derivative Securities.

5. Trading Halts: NSX Rule 15.9B(4) provides that, in addition to the Exchange's authority to suspend or halt trading under NSX Rules 11.20 (Trading Halts Due To Extraordinary

Market Volatility), 12.11 (Trading Suspensions) and 15.7 (Suspension and/or Delisting By Exchange), if a temporary interruption occurs in the calculation or wide dissemination of the intraday indicative value (or similar value) or the value of the underlying index or instrument and the listing market halts trading in the product, the Exchange, upon notification by the listing market of such halt due to such temporary interruption, also shall immediately halt trading in that product on the Exchange. The Shares will be traded following a trading halt in accordance with Interpretations and Policy .03 of NSX Rule 11.20.

In addition, for a UTP Derivative Securities product where a net asset value is disseminated, if the primary listing exchange notifies the Exchange that the net asset value is not being disseminated to all market participants at the same time, the Exchange will immediately halt trading in such security. The Exchange may resume trading in the UTP Derivative Security only when the net asset value is disseminated to all market participants at the same time or trading in the UTP Derivative Security resumes on the listing market.

**THIS INFORMATION CIRCULAR IS NOT A STATUTORY PROSPECTUS. ETP HOLDERS SHOULD CONSULT THE ISSUER DISCLOSURE MATERIALS (AS DEFINED ABOVE) FOR ALL RELEVANT INFORMATION RESPECTING THE SHARES.**

Inquiries regarding this Information Circular should be directed to James C. Yong, Chief Regulatory Officer, at (312) 786-8893.
